

## 15th European Women Pharmacists Meeting

To be held ONLINE

Saturday 20 November 2021

Ethical Conflicts in Pharmacy

Cluj-Napoca, Romania

Pharmacists are confronted daily with situations that bring them into ethical conflicts. Professional standards and values can conflict with other interests, such as those of the patient, other caregivers or the health insurer. Careful handling of such situations is important for successful resolution and job satisfaction.

Register for this conference to listen to the speakers, evaluate ethical issues you have encountered in the workplace, and contribute to the discussion.

Please register at: <http://vaaoe.at/events/anmeldung/ewpm2021>
